DIRECTIONS

Take two capsules a day. With meals and 6 to 8 oz of water, for example one with lunch and one with dinner.

WARNINGS

Never on an empty stomach. Not for use during pregnancy or nursing. Consult your healthcare professional before use if you take medication for blood sugar, blood pressure or any prescription drug, or have a medical condition. Berberine can cause constipation, loose stools or cramping in some people; taking it with meals usually helps. Do not exceed two capsules a day. Keep out of reach of children.
